EASTER RECYCLING

PLEASE BE MINDFUL AND CREATE LESS WASTE

The delightful treats that come with Easter, it also brings with it numerous boxes, foil wrapping and plastic. We want to make sure you have all the information you need to ensure you can recycle effectively this Easter.

Check out our top tips for a more recycling friendly Easter:

1. Cardboard boxes can be flattened and recycled at the kerbside or recycling centres.
2. Supermarkets have recycling facilities and some will take the recycling your local authority may not.
3. Easter cards can be recycled in with your card and paper – just rip off any glittery bits!
4. Did you know that the foil wrapping on your Easter eggs can be recycled? Just scrunch together with any other foil and pop in the recycling.
5. Try the scrunch test with foil – if it scrunches and doesn't spring, it's safe to be recycled. If it scrunches but springs back it has a plastic lining and can't be recycled, so it's best to pop this in the general rubbish bin.

Across Warwickshire, you can recycle cardboard, tin foil, and plastic containers at the kerbside. For more information on what else can be collected, visit Recycle Now.

Over the Easter break, all sites will be open on Saturday 19 April and Easter Sunday 20 April. The smaller sites of Cherry Orchard in Kenilworth, Shipston and Wellesbourne will be closed on Good Friday 18 April and Easter Monday 21 April due to planning permission restrictions.

Visitors are advised to pre-sort waste when packing their car for an efficient visit. Full details of all the waste streams that can be recycled at the nine recycling centres in the county, and details of how to book, can be found at: www.warwickshire.gov.uk/hwrc
